

Attending the 11th World Congress on Alternatives and Animal Use in the Life Sciences?

Come check out our posters and presentations!

Poster 228:

Improving Quality
of In Vitro Methods:
A GIVIMP
Certification
Program

Poster 551:

How the Good In Vitro Method
Practices Guidance Document
Can Help Implement New
Toxicological Approaches: A
Case Study in China

Poster 877:

E-learning modules to promote
implementation and development of new
alternative approaches to animal testing:
content development and potential
integration into training courses

Poster 929:

Retrospective Review on In Vitro
Phototoxicity Data Generated in 3D
Skin Models to Support Development
of New OECD Test Guideline

Poster 965:

Title: Human-Relevant
Approaches to Assess Eye
Corrosion/Irritation Potential
of Agrochemical Formulations

Presentation (Session ID: 128)

Advanced Human
3-Dimensional Test
Systems Paired with
Modern Exposure
Systems: Progress
Toward Recreating
Physiological-like
Inhalation

Tuesday 31 August 2021, 3:00 PM - 5:00 PM CEST
Lessons Learned and Practical Considerations for the Use of
In Vitro Exposure Systems to Assess Respiratory Toxicity

Presentation (Session ID: 313)

Scientific workshop on non-
animal approaches for
chemical safety in China:
Current Progress and Outlook

Roadmap:

Tuesday 31 August,
3:00 PM - 5:00 PM
presented by Dr.
Carl Westmoreland
of Unilever

Moderated Discussion by Unilever with IIVS's Erin Hill

Accelerating use of new science
and technology for Chemical
Safety Assessment

Tuesday 24 August, 1:30PM-2:15PM
